

Example #1:

Described as “one of the nicest volunteers at Ourtown School”, Jill Smith epitomizes kindness and care for our school community. She is the person who you can usually depend on to take on a job that she doesn't have time to accomplish yet she still makes it amazing. Jill is always there for help in classrooms and on field trips even though she is a working mom. She coaches Math Olympiad, created an amazing line-up of all-school assemblies and always lends a helping hand at school events. Jill is a wonderful role model who is appreciated throughout the school.

Example #2:

Jan Smith started as a willing classroom volunteer and quickly took the reins of the art program that Ourtown students now depend on. She has led a school-wide Art Docent program bringing art education and creative processes to every Ourtown student. Her team has funded the docent program by establishing an annual Art Auction that raises enough money for a year's worth of supplies. Finally, taking art to the next level, Jan was on the inaugural Science Night planning committee and has turned it into a full STEAM night to include science, technology, engineering, ART and math.
